

For Immediate release

Patriot Taxiway Industries Inc, a Service Disable Veteran Owned Small Business Enhances the Lighting Inside the Air Force KC-135 Stratotanker

October 13, 2010 – Lomira, WI

Patriot Taxiway Industries today announced winning a contract from the Air Force to provide 16 KC-135 Portable LED Cargo Lighting System kits to the Air Mobility Command at Scott Air Force Base, Illinois, in support of the Aeromedical Evacuation (AE) mission.

Patriot's lighting system produces more than 30 times the illumination that the original lighting system generated. Such an innovation will improve the capabilities of aero medical crews to perform critical inflight patient care to wounded military personnel.

The KC-135 Cargo lighting System was deployed this summer for flight testing from Afghanistan to a medical treatment faculty in Germany by the Kansas Air National Guard. The system supported several AE missions; the lighting system received high remarks from the aero medical staff.

Patriot worked closely with Kansas ANG aero medical staff to develop a 12 light bar system. "This particular contract hit closer to home," explained Steven Smits, President of Patriot Taxiway Industries "Being a KC-135 maintainer and knowing the mission personally, I challenged our team to deliver on this project". Due to the close connection to KC-135 command Patriot even used its own capital funds and resources to ensure a quality product that best fit the situation.

"The AE mission and the ability to support wounded warriors were improved by the leadership of General Bunting and his Kansas Coyote Air Guardsman. Hearing from doctors that the Patriot lighting improved their ability to care for our country's critically wounded as we bring them home was humbling," stated Kevin McDermott, Vice President of Patriot Taxiway Industries. "We are actively looking for C-5 or C-130 operators to demonstrate our system on their platforms" stated McDermott.

For more information about the KC-135 Portable LED Cargo Lighting System including a video demonstration, visit Patriot's micro site at <http://www.patriottaxiway.com/KC135/>. Patriot Taxiway Industries will be exhibiting the system at the Airlift/Tanker show in Orlando on the 28-31st of October.

ABOUT PATRIOT TAXIWAY INDUSTRIES, INC.

Patriot Taxiway Industries Inc is a service-disabled veteran owned small business that provides design, manufacturing, and delivery of quality LED products, along with the excellent service and support to their customers worldwide. In addition to portable runway lighting systems, Patriot Taxiway also provides airfield lighting support equipment, heli-pad lighting, and aircraft lighting to both branches of the military.

Patriot Taxiway Industries Inc actively recruits veterans to draw upon their skills, experience, commitment, and integrity in order to provide a superior product and service. Patriot Taxiway reaches out to the veteran community through the local veteran service officers to reach into the rich experience and knowledge of our veterans.
